

Swabri Kanenje

Full-Stack Developer: JS | Go [Portfolio](#) [Github](#) [email](#) | Kisumu, Kenya | 254723975141

Profile Summary

Junior UI/UX Designer with a strong foundation in full-stack development, specializing in crafting intuitive user interfaces and seamless user experiences. Skilled in frontend development (HTML, CSS, JavaScript) and passionate about design thinking, user research, and interaction design. Adept at bridging technical implementation with human-centered design principles to create engaging, responsive, and accessible web applications. Committed to delivering design solutions that are not only visually compelling but also functional, scalable, and aligned with business goals.

Work Experience

Software Developer

Jan 2024 - Present

Enrolled in the 2-year full stack developer training program with a focus on peer-to-peer learning and practical projects.

- Designing and implementing scalable backend services using Go, with a focus on performance optimization and clean code principles.
- Crafting responsive frontend interfaces for web applications using HTML CSS and JavaScript.
- Contributing to collaborative development environments, adhering to best practices in version control, CI/CD, and code reviews.
- understanding of low-level programming concepts, including memory management and hardware-software interfaces
