

Swabri Kanenje

Full-Stack Developer: JS | Go [Portfolio](#) [Github](#) [email](#) | Kisumu, Kenya | 254723975141

Profile Summary

Frontend Developer with experience in Svelte, Next.js, and React, specializing in crafting intuitive, responsive, and accessible user interfaces. Skilled in JavaScript, HTML, and CSS, with a strong foundation in design principles and UX best practices. Passionate about bridging design and implementation by building reusable components, optimizing performance, and ensuring seamless user experiences. Committed to delivering scalable, maintainable, and visually polished solutions that align with both user needs and business goals.

Work Experience

Software Developer

Jan 2024 - Present

Enrolled in the 2-year full stack developer training program with a focus on peer-to-peer learning and practical projects.

- Designing and implementing scalable backend services using Go, with a focus on performance optimization and clean code principles.
- Crafting responsive frontend interfaces for web applications using HTML CSS and JavaScript.
- Contributing to collaborative development environments, adhering to best practices in version control, CI/CD, and code reviews.
- understanding of low-level programming concepts, including memory management and hardware-software interfaces
